PROFILE

Data & solution architect with 11+ years in IT and 8+ years designing data platforms — data mesh, lakehouse and metadata-driven architectures on Azure and Databricks. I design target architectures that survive contact with reality, because I also build and run them: infrastructure as code, CI/CD and governance included. Comfortable from whiteboard to production, and a sparring partner for enterprise architects and teams alike.

CORE EXPERTISE

- **Architecture** — data mesh, lakehouse, metadata-driven platforms, target architectures and roadmaps
- **Databricks platform** — workspace architecture, Unity Catalog governance, Asset Bundles, cost control
- **Cloud foundations** — Azure, Terraform/Terragrunt structures, CI/CD, Kubernetes
- **Advisory & enablement** — assessments, cloud roadmaps, coaching architects and engineering teams

EXPERIENCE

ProRex Consultancy — Owner · Data & Platform Engineering Consultant Mar 2022 – present

Heijmans — Platform Engineer / Data Engineer (via ProRex) Dec 2025 – present

- Co-designing the Heijmans data platform: data-mesh target architecture on Azure and Databricks; sparring partner for the solution architect.
- Architecture made executable: all infrastructure as code (Terraform/Terragrunt) and standardized CI/CD on Databricks Asset Bundles.
- Integration architecture for SAP, Autodesk and M-Files; agentic-AI use cases with the data science team.

TBI — Lead Data & Platform Engineer (via ProRex) 2022 – 2025

- Designed and led the build of TBI's data-mesh platform architecture, serving 17 companies and hundreds of sources (Terraform/Terragrunt, GitHub CI/CD).
- Designed the extraction patterns for 4PS (construction ERP); guided the App Services → Kubernetes modernization.
- Set the standards and coached the BI team into engineering and DataOps ways of working.

Vattenfall — Data Engineer / Solution Architect (via ProRex) 2022 · 6 months

- Designed the target lakehouse architecture (Databricks + dbt) replacing a struggling Azure data warehouse: stack selection, infrastructure, CI/CD and team training.

GoDataDriven — Data & Analytics Consultant Sep 2020 – Feb 2022

- Platform assessment for Stedin; cloud roadmap for Intergamma (AWS/Azure/GCP scenarios); platform rebuild for Nationale-Nederlanden; architecture for a reusable, commercially sold data platform.

Macaw — Data & Analytics Consultant Sep 2019 – Aug 2020

- Solution architecture for Sustainovate's privacy-compliant data marketplace; data platforms for SamenGezond (Menzis) and Henkel; technology-committee member.

Motion10 — Data & Analytics Consultant Jan 2018 – Aug 2019

- Solution architect for ABN AMRO Pensioenfond (urgent Brexit cloud migration), De Goudse (integrated target architecture), Croonwouter&dros (modern DWH design) and Van Gogh Museum; hands-on delivery for Samskip, Het Nieuwe Instituut, TBI and Marlink.

Vixion — Full Stack Developer 2017

- SSO-as-a-Service product: API, database and application (C#, ASP.NET Core, IdentityServer).

OGD — IT Support Specialist 2015 – 2016

OPEN SOURCE

isolinear — keyboard-driven terminal UI for managing Databricks secrets (Python, Textual, MIT) · github.com/misja-pronk/isolinear

CERTIFICATIONS

- MCSA: Data Engineering with Azure — Microsoft
- MCSE: Data Management and Analytics — Microsoft
- dbt Fundamentals — dbt Labs
- Databricks Lakehouse Fundamentals — Databricks

EDUCATION

BSc Information Technology — The Hague University of Applied Sciences

2012 – 2017

MBO 4 Application Development — ROC ID College

2010 – 2012

SKILLS

Methods: Data mesh, DataOps, metadata-driven design, dimensional modeling, Scrum

Databricks & data: Spark, Delta Lake, Unity Catalog, Asset Bundles, dbt, dlt, SQL Server, PostgreSQL, Neo4j, Great Expectations

Platform & cloud: Azure (25+ services in production), Terraform, Terragrunt, Kubernetes, Docker, GitHub Actions, Azure DevOps

Programming: Python, SQL, C#, PowerShell, Cypher

Tooling: uv, mise, ruff, pytest, Databricks CLI, kubectrl, Git

Languages: Dutch (native), English (fluent), Spanish (conversational)
